For optimum performance, it is essential that the filter cartridge (Model No. SFFI) be replaced approximately every 6 to 7 months.

List Price: \$49.95

Bath

SHBATH

Multi-Pure's crystal bath ball and salts go into your bath to aesthetically improve bath water.

List Price: \$49.95

Replacement Filters

For optimum performance, filters require periodic replacement dependent on use, type, and level of impurities in local water. Replace the filter cartridge when the first of the following occurs: a) annually; b) when the unit's rated capacity is reached; c) the flow rate diminishes; or d) the filter becomes saturated with bad tastes and odors. All filter capacities are approximate.
