

Bottle-less Water Coolers

Multi-Pure's coolers are the best way to enjoy a refreshing drink of ice cold, or piping hot Multi-Pure water at work and at home!

- **Multi-Pure coolers save you money!**
It's like having a water bottling plant right in your home or office.
- **Multi-Pure coolers save you time!**
You no longer have to deal with rental fees, deliveries, bottle storage or have empty bottles cluttering up your home or work place.
- **Multi-Pure coolers are safer!**
They prevent water spills from lifting heavy water bottles, which can also cause back strain and various other injuries.
- **Multi-Pure coolers are greener!**
Bottle-less coolers eliminate water bottles from being discarded into the landfill and reduce the fuel used to deliver 5 gallon bottles to the office or home every week.

The Multi-Pure WC1000 & WC1500 coolers have a modern look and feel, suitable for both businesses and homes.
