

Multi-Pure's H2O on the Go Bottles

Multi-Pure's sustainable solution to Bottled Water ... H2O on the Go!

Multi-Pure's stainless steel reusable bottles are the go-anywhere solution to the waste of bottled water. Fill up your H2O on the Go with clean, clear, delicious Multi-Pure water and send the message to everybody that you're doing your part to fight the environmental nightmare that is bottled water.

Bottled water, sold in single-serving plastic bottles, is responsible for hundreds of tons of plastic waste, the release of hundreds of tons of carbon dioxide, and millions of gallons of crude oil used for the manufacture and transportation of the bottles. You can help make the earth a little bit greener with Multi-Pure's H2O on the Go!
