

Aquagrow

With the new Aquagrow Garden Filter, Multipure provides the benefits of cleaner, more healthful water to your yard and garden. By connecting the remarkable Aquagrow inline filter to your existing garden hose, you can provide your lawn, your garden, and any of your outdoor plant life with beneficial dechlorinated water. The Aquagrow provides the water that your plants need to truly thrive.

Benefits & Features

- Enhances the effectiveness of non-chemical pest control methods
- Prevents hose wear with a specially designed, shock absorbing hose saver
- The Multipure Aquagrow is completely non-toxic
- Processes a minimum of 20,000 gallons
- Removes over 85% of the chlorine from garden hose water
- Uses 26 ounces of KDF-55™ and 2 ounces energized crystal
- Promotes healthy plant nutrition and growth by returning the natural balance to your soil, compost, or mulch

Multipure's Aquagrow is designed for garden and hydroponic use, not as a drinking water filter. Aquagrow is not designed to remove particulate matter or other contaminants such as organic chemicals from drinking water. Please also note that this filtration system is not recommended for use in filling fish ponds.
