Replacement Filter	AQSF
Filter Capacity	25,000 gallons
Operating Temperature Range	40° F (5° C) to 120° F (49° C)
Operating Water Pressure Range	30 psi to 100 psi

Multipure's Aquashower dechlorinating shower filter provides a long lasting solution to the problems associated with exposure to excessive amounts of chlorine. Its specially-formulated KDF®-55 filter media effectively removes 90% or more of chlorine from shower water. Once in contact with the KDF®-55, chlorine in the water converts into an environmentally safe and harmless soluble chloride. System tested and Certified by WQA against NSF/ ANSI Standard 177 for the Reduction of Free Chlorine.
