Rita Wallberg

Our distributors come from all walks of life. Rita Wallberg is a Systems Analyst for the Bureau of Land Management. She purchased her Multi-Pure in May 2003 because one of her co-workers, Del Will, told her about it. She did not want to become a distributor and had no interest in selling. As her health improved from drinking Multi-Pure water, she became more and more enthusiastic. After about 9 months, she decided that she needed to share the good news about good water with others, and became a distributor! She is now a Master Builder, and just attended the Multi-Pure Conference in Las Vegas. She has focused her sales in the deaf community.
