Rubber Items	Silicone
Inlet	1/8" NPT
Outlet	1/8" NPT
Replacement Filter	CB6
Filter Capacity	750 Gallons
Flow Rate	0.75 gpm
Water Pressure	100 psi max/30 psi min
Housing Dimensions	8.5"h x 5.75"w
Particulate Retention Size	Sub Micron
Housing Warranty	Lifetime

Filter life will vary in proportion to the amount of water used and the level of impurities in the water being processed. Claims of capacity are not applicable to contaminants reduced by mechanical filtration because of broad variations in the quality and quantity of physical matter in your drinking water. Your Multipure filter will clog, protecting you from these contaminants, and your flow rate diminishes. For contaminants reduced by adsorption, filter life/capacity is 750 gallons. It is recommended that the filter be replaced when the first of the following occurs: (a) annually, (b) the unit's rated capacity is reached, (c) the flow rate diminishes, (d) the filter becomes saturated with bad tastes and odors.

Base Kit - This unit is excellent for use with inline applications such as icemakers, instant hot units, coffee machines, various restaurant uses, etc. However, no installation fixtures or accessories are provided.

Countertop Kit - This unit sits on your counter next to the sink and connects to your existing faucet using a dual-hose diverter valve that allows you to easily switch from filtered to unfiltered water. The MP750SC unit may be converted to a below-the-sink unit with the purchase of a conversion kit.

Below-The-Sink Kit w/ Faucet Kit - This popular model comes with its own specially designed drinking water faucet which is installed directly on your sink, using little space. This versatile unit, installed below your sink, can sit on the cabinet floor or be mounted on the cabinet wall with a bracket. It may be connected to an icemaker or other device, using an optional tee, and it may be converted to a countertop unit with the purchase of a conversion kit. Faucet Available in multiple colors.

Single Hose Diverter Kit - Use this kit to connect to your existing faucet with a single-hose diverter valve and output from a system-mounted faucet.

Below-Sink Kit
(Faucet Included)

Countertop Kit
(Dual-hose Diverter Valve Included)

Single Hose Diverter Kit
(Single-hose Diverter Valve Included)
