

Aquasource

A whole-house water solution, providing powerful filtration at the point-of-entry, and ensuring that every water source in the home delivers cleaner, more healthful water. This system installs in the garage or basement, near the water heater, as a fixed-location filtration element. An array of multiple solid carbon block filters ensures that it reduces the presence of contaminants while maintaining the high water pressure needed to supply all the sinks, baths, and showers in your home. **NOTE:** The Multipure Aquasource must be installed by a licensed plumber in accordance with all applicable plumbing code.

Benefits & Features

- Water filtration for the entire house
- Connects at the point-of-entry
- Powerful filtration while maintaining high water flow
- A limescale reducing option of the Multipure Aquasource is also available

Specifications

SKU	AQSOURCE2, AQSOURCELSI2, AQSOURCECLM2, AQSOURCECLMLS12
Replacement Filter Type	Model CB20* (optional CB20LSI***, CB20CLM, CB20CLMLS1***)
Filter Capacity	33,000 gallons per cartridge*
Flow Rate	10-12 gpm**
Housing Composition	304 Stainless Steel
Rubber Items	Silicone
Inlet	1" NPT
Outlet	1" NPT
System Size	41" h x 16" d
System Weight (without cartridges)	120 lbs.
Filter Cartridge Size (each)	20" h x 4.75" d
Filter Cartridge weight (each)	6 lbs
Working Pressure Range	30 psi (2.1 kg/cm ²) to 100 psi (7.0 kg/cm ²)
Operating Temperature Range	32° F (0° C) to 100° F (38° C) – for cold water use only
Housing Warranty	Lifetime

*Each Aquasource filter cartridge has an estimated capacity of 33,000 gallons for chlorine taste and odor reduction. **Flow rate varies depending on filter cartridges used. The Multipure Aquasource has not been tested and makes no claims for the reduction of contaminants of health concern. ***Estimated limescale reduction capacity is 7000 gallons in water with moderate hardness of 60 – 120 mg/L.

Carbon Block Technology

About the Aquasource Carbon Block Filters

- When used with the Multipure Aquasource Whole House Water Treatment System, the Aquasource CB20 effectively reduces dirt, rust, sand, algae, and chlorine, improving the smell, taste, and overall quality of water for bathing, showering, and all other household water needs.
- In addition, the CB20CLM filter cartridge also effectively reduces the presence of chloramine in the water.
- The LSI model filter cartridges*** (CB20LSI/CB20CLMSI) provide additional performance to prevent the formation of limescale in the plumbing.
- Aquasource filter cartridges are designed for use only with the Multipure Aquasource Whole House Water Treatment System.
- The Aquasource uses a set of three of the same model filter cartridges. Different model filter cartridges cannot be utilized at the same time.
- Aquasource filter cartridges are disposable, clean, and easy to change.

Nationally recognized standards established for the drinking water treatment industry confirm that the most effective systems for the removal of both aesthetic and harmful contaminants are those that utilize solid carbon block filters. Multipure is the original developer of solid carbon block technology, and has been the leader and innovator in the water treatment industry since 1970. Multipure, and its remarkable solid carbon block filter, is synonymous with superior quality, exceptional innovation, and intelligent performance.
